OBJECTIVE

Motivated Software Developer experienced in building real-world applications using Python, Flask, SQL, and modern development tools. Looking to join a forward-thinking organization where I can contribute to impactful projects, embrace new technologies, and grow as a full-stack engineer.

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, HTML, CSS

Frameworks & Libraries: Flask, React.js, FastAPI, REST APIs, Bootstrap

Software Engineering: SDLC, Agile Methodology, OOP, Software Design Principles

Version Control & DevOps: Git, GitHub, Git Workflows, Docker(basic), CI/CD (basic)

Testing & Tools: Postman, pytest (basic), VS Code, PyCharm, Jupyter Notebook

Deployment & Databases: AWS (basic), Render, MySQL

PROJECTS

Expense Tracker Web Application

Tech Stack: Python Flask, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a full-stack expense tracker with secure authentication and complete CRUD operations for expense management.
- Built interactive dashboards with charts and graphs for category-wise expense analysis and reporting.
- Added features like monthly expense filtering, month-wise category comparison, and graphical expense visualization for better user experience.
- Implemented smart budget alerts and next-month budget prediction based on the previous three months' spending history.
- Designed responsive UI using HTML, CSS, JavaScript, and Bootstrap with Flask and MySQL backend integration.

HealthConnect – Integrated Healthcare Ecosystem

Tech Stack: React.js, Python Flask, MySQL, REST API, JWT

- Collaborated in a team to develop an integrated healthcare ecosystem connecting patients, doctors, and pharmacies through interconnected platforms.
- Independently designed and developed the complete **Doctor Portal**, including frontend, backend, REST APIs, and database integration using Flask.
- Implemented secure prescription management with unique **RX code generation**, enabling pharmacies to verify and dispatch medicines securely while preventing prescription misuse.
- Built scalable APIs, appointment management, patient record handling, and responsive dashboards with role-based access control.
- Developed a modular healthcare system enabling seamless communication between doctor, patient, and pharmacy services.

EDUCATION

Central Tribal University Of Andhra Pradesh, Vizianagram(CTUAP)

Sept 2023 to May 2026

B.sc Artificial Intelligence Minor: BBA(TTM)

CGPA: 7.9

CERTIFICATES

Software Engineer Intern Certificate [HackerRank](#)

Dec 2024

SQL Certificate [HackerRank](#)

Dec 2024

EXTRA-CURRICULAR ACTIVITIES

Software and Hardware Club Coordinator | Central Tribal University of Andhra Pradesh

Oct 2023 – May 2026

Coordinated technical activities, managed lab resources, and supported software maintenance for university systems.

HACKSAGON 2026 Finalist

Selected as a finalist in HACKSAGON 2026, a national-level hackathon organized by ABV-Indian Institute of Information Technology and Management Gwalior.
